## The Director of Central Intelligence Washington, D.C 20505

Critical Intelligence Problems Committee

26 June 1984 DDW-68

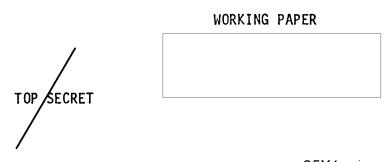

## WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--27 June 1984

## CIPC Organizational Activities

- On 14 June the DCI approved the CIPC Mobile Missile Study Concept of using a senior panel to approach this problem instead of a working group consisting of relatively junior analysts.
  - However, ad hoc working groups will be established as required by the senior panel.
  - The DCI's memorandum to DD/CIA, D/DIA, D/NSA, D/NRO and ACS/AF requesting their respective assessment of where we stand today with regard to this intelligence problem was also forwarded on 14 June. Their responses are due circa 3 July 1984.

<ul> <li>In addition we are drafting for your signature a memorandum to CIA, DIA, NSA, NRO, USDR&amp;E and the DCI Collection Committees requesting that they provide a senior individual to serve on the senior panel.</li> </ul>	20/(1
- Meanwhile, we are continuing to work with the Administrative Staff finalize contractor/consultant arrangements with	<b>to</b> 25X1

- The Soviet Ballistic Missile Defense (BMD) Study is presently being finalized.
  - NIO/SP's comments and recommendations have been accommodated.
  - The study is presently undergoing editorial review prior to going to printing for proof copies--this is scheduled to be completed by Friday, 29 June.

25X1

- Subsequently, we will prepare a covering memorandum for you forwarding the study to the DCI with a recommendation that the study	
<ul> <li>be tabled at a future NFIC meeting.</li> <li>Finally, we still need an appropriate title for the Study. Attached is a list of candidate titles for your consideration. These were provided by various staff offices. Should you select one of these, the originator will win an undetermined prize; we're presently leaning toward a brownie.</li> </ul>	2
• trip to FTD has been postponed. FTD has been advised, however, they are still anxious for the visit at a future date.	2
• CIPC Conference on 9-10 August Tets discuss.	
<ul> <li>It appears we had another very successful and productive CIPC meeting on 25 June. The CBW working group is meeting on 27 June to finalize the CBW Study pursuant to the direction provided by the Committee.</li> </ul>	
arcotics Working Group Activities:	2
<ul> <li>The Narcotics Working Group met on 20 June to review a draft proposal from the working group chairman in order to meet the deadline of 30 September for preparing a final report for the DDCI on several outstanding issues, including:</li> </ul>	
<ul> <li>Ways and means to improve qualitatively the specific kinds of intelligence information needed to combat the narcotics problem.</li> </ul>	
<ul> <li>The Chairman has proposed a series of <u>short</u> (no more than 2-3 pages) papers on the following topics:</li> </ul>

25X1

• This proposal was adopted by the working group and a 15 August deadline was set for the drafts, which will be written by individual representatives of the working group. On the question of estimates and analytical production, there was a consensus that while research is covered pretty will, ad hoc estimates are not and that there might be a more systematic way to poll the Community for ideas.	
• On 22 June, attended the monthly NIO/Narcotics Warning Meeting.	25X1
CIPC China Study:	25 <b>X</b> 1
• The full China Working Group met on 19 June to discuss agency comments on the revised draft report. The meeting was most successful. Working group members were unanimous in agreeing that the revised draft is well organized and written, and represents a substantial improvement over the initial draft that had been circulated in April. A few substantive issues remain to be worked out. Toward that end, CIPC staff has scheduled a series of small group meetings for this week and next that will bring the parties in disagreement together in a final attempt to reconcile opposing judgments. The principal remaining points of contention involve differences between the NIO/EA, CIA/DDO and the Department of State. Other meetings are scheduled to iron-out wrinkles	25X1
Soviet Ballistic Missile Defense:	
and will meet with COMIREX representatives on Wednesday, 27 June 1984, to identify potential members for a small working group to review the current BMD collection and exploitation	
requirements.	25X1
